EDUCATION

Chandigarh University   Mohali, Punjab, India
Bachelor of Engineering(B.E) – Computer Science | **CGPA: 8.19**   2020 – 2024

Dr. R.J.Y Evening Inter College   Gaya, Bihar, India
Intermediate(XII) – BSEB – 75%   2018 – 2020

Pratibha Punj Public School   Jehanabad, Bihar, India
Matriculation (X) – CBSE – 77.9%   2016 – 2017

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, SQL, HTML, CSS
Frameworks & Libraries: React.js, Node.js, React Native, jQuery, React Query, Redux, Recoil, Axios, Formik
UI Frameworks: Material UI, ReactStrap, PrimeReact, Bootstrap, PrimeFlex, React Native Paper
Tools & Databases: MySQL, Git, GitHub, Visual Studio, Eclipse

EXPERIENCE

Software Developer   Jan 2025 - Present
Webpristine Technology
- Developed responsive **web & mobile apps** using **ReactJS**, **React Native**, and **TypeScript**.
- Built modern UIs with **Tailwind**, **PrimeReact**, **PrimeFlex**, and **React Native Paper**.
- Managed app state efficiently using **React Query**, **Redux Toolkit**, and **Recoil**.
- Solved key company challenges by developing a **Lead Management System** from scratch.
- Collaborated with cross-functional teams to ensure **high-performance**, **scalable**, and **user-friendly** applications.

Full Stack Developer Training   June 2024 - Jan 2025
Ducat Training Institute
- Completed **8 months** of hands-on training in **Full Stack JavaScript Development**.
- Gained expertise in **ReactJS**, **Node.js**, **Bootstrap**, **Java**, and **Git**.
- Built full-stack applications with **RESTful APIs**, interactive UIs, and efficient backend services.
- Strengthened skills in **frontend development**, **backend integration**, and **version control** using **Git**.
- Worked on real-time projects and improved understanding of **software development lifecycle** and **code optimization**.

PROJECTS

API Marketplace   Currently Working
- Launched an innovative API marketplace offering three skill levels for students at competitive prices, enhancing their learning experience.
- Developed an interactive frontend using React.js and a robust backend with Node.js, achieving seamless integration that enhanced user engagement metrics by optimizing load times to under 2 seconds.
- Integrated **JSON Web Token** (JWT) for secure user authentication and authorization, ensuring data protection and secure API transactions.

Lead Management System
- Developed a **lead management application** to replace manual sheet-based tracking, streamlining the entire process.
- Designed role-based access for **three user types**: **Admin**, **Lead Generator**, and **Business Developer**.
- Enabled **Lead Generators** to create leads based on admin-defined targets, with automatic validation and tracking.
- Implemented logic for **Admin** to assign leads to specific **Business Developers**, ensuring leads are visible **only to assigned users**.
- Built using **React with TypeScript**, **Redux**, **Node.js**, and **MongoDB**, ensuring a secure, scalable, and efficient system.

Replica Weapon Store
- Built a fully responsive Replica Weapon Store using React.js, Redux, and Bootstrap, offering seamless user navigation and dynamic product filtering.
- Developed a Node.js + Express.js backend to manage user authentication, product listings, and cart functionalities with secure RESTful APIs.
- Integrated MongoDB for efficient data storage and retrieval of user accounts, orders, and replica weapon inventory.

ACHIEVEMENTS AND CERTIFICATES

- **Java 8 and Spring MVC | (**Infosys Springboard)   February-2023
- **Responsive RealWorld Website with HTML, CSS and JS |** (Udemy)   January-2022
- **Attained both Java and SQL certifications from Hackerrank |** (Hackerrank)   February-2022
